# WILD CARDS!

This year two Texans are invited to play as "wild card" entries in the US Championships (Tulsa, May 13-21.)

**Michael Langer** of Austin (shown above in Gibraltar) was re-invited to the U.S. Championship as one of three "wild card" entries. The 24-player field will lack Kamsky and Nakamura, but with defending champ Shabalov and other top seeds such as Onischuk, Kaidanov, Ehlvest, Akobian, Shulman, Gulko, Bacerra, Ivanov, Perelshteyn, Kudrin and Finegold, another strong event is in store.

**Courtney Jamison** has also been invited as a "wild card" entry, in an elite ten-player field at the US Women's Championship being held concurrently with the men's event. Courtney, who is finishing her sophomore year at Williams High School in Plano, defeated Denker champ Warren Harper this March in the Texas High School Championship (see p. 11 for the game).

## Fourteen from Texas qualify for World Youth Championships

Congratulations to all Texas players who qualified for the 2008 World Youth Championship to be held Oct. 19-31 in Vung Tau, Vietnam:

**Girls Under 18:** Courtney Jamison. **Girls Under 12:** Sarah Chiang, Sylvia Yang, Ellen Xiang, Caroline Zhu. **Girls Under 10:** Evan Xiang. **Girls Under 8:** Hannah Liu, Sarai Guillen. **Boys Under 18:** Warren Harper. **Boys Under 12:** Darwin Yang, Jarod Pamatmat. **Boys Under 8:** Jonathan Chiang, Raymond Sun, Outeng He.

Note that under new TCA rules, World Youth qualifiers get reimbursed for their entry fees the following events: Texas Masters, Texas State and Amateur, and the Southwest Open.

## TCA Nominations

Candidates for TCA office must have nominations in writing to the *TK* Editor (POB 501, Helotes, TX 78023 or [schachlied@yahoo.com](mailto:schachlied@yahoo.com)) by **June 15**. The positions are president, vice-president, secretary and treasurer. Both nominator and nominee must be TCA members. Each candidate gets a free 100 word statement in the magazine, more at the ad rates posted on page 2. Candidates running as a 'slate' may pool their allotments of free space.

## TCA Chess in Education workshop

by Dr. Alexey Root

The March 8, 2008 TCA Chess in Education workshop was sponsored by TCA, UT Brownsville, UT Dallas and Texas Tech. The workshop was co-organized by Alexey Root and Luis Salinas. Presentations from the workshop will be available at the USCF Chess in Education Committee website, [www.thechessacademy.org/](http://www.thechessacademy.org/).

The workshop had 28 paid participants, up from 25 in 2007 (the first year of the workshop). Half of the 28 participants were educators: principals, assistant principals, and teachers. The other half consisted of parents and chess coaches.

The first presenter was Dr. Steve Lipschultz, who demonstrated Think Like a King software.

Second, UTB's Russell Harwood described his career path, from second grade teacher to UTB. Harwood emphasized that it did not take long to grow his first

### SW Collegiate Chp. 2008 (1)

1.e4 c5 2.Nf3 e6 3.d4 cxd4 4.Nxd4 Nc6 5.Nc3 Qc7 6.Be2 a6 7.0-0 Nf6 8.Be3 Bb4 9.Na4 0-0 10.Nxc6 bxc6 11.Nb6 Rb8 12.Nxc8 Rfxc8 13.Bxa6 Rf8

This allows for ...Ne8 and ...f5 if needed. Other tries include 13...Rd8 and 13...Re8.

14.Bd3 Bd6 15.f4 e5 16.f5 Rxb2

17.g4 Qa5 18.g5 Ne8 19.Qh5?!

Usually seen is 19.Qg4, which can later be useful to contest the dark squares with Qg1 after the bishops get traded. The text overreaches, as there's no mating attack if Black is careful. Typically in games I saw on NIC Base, the kingside gets locked down and White tries to make hay off his passed a-pawn, e.g. 19.Qg4 Bc5 20.Bxc5 Qxc5+ 21.Kh1 f6 22.g6 h6 23.Rfb1 Δ Qg1.

19...Bc5 20.Bxc5 Qxc5+ 21.Kh1 f6 22.h4 d5!

This is so textbook! Black reacts in the center, while White's queen is out of play and Black's strong heavy pieces go unchallenged.

23.Qf3 Nd6 24.Rfb1 dxe4 25.Bxe4 Rb4 26.Rxb4 [26.Re1 Qc4+] 26... Qxb4 27.Bxc6 Qxh4+ 28.Kg2 Qxg5+ 29.Kf2 Qd2+ 0-1

This is not, as I supposed, never played by strong masters. However, White has a 77% winning percentage after his next move. Black can get connected passers, but they are easy to blockade.

5.a4 c6 6.axb5 cxb5 7.b3 Bb7

A representative line is 7...Bb4+ 8.Bd2 Bxd2 9.Nbxd2 a5 10.bxc4 b4 11.Ne5 Nf6 12.Be2 0-0 13.Bf3 Ra7 14.0-0 Qc7 15.Qa4 Bd7 16.Nxd7 Nbx7 17.Nb3 e5 18.Qc6± Riazantsev-Löffler, Warsaw EUR tt 2001.

Also winning, but more complicated, is 16.exd7+.

16...Qxd7 17.exd7+ Kxd7 18.0-0-0 Kc7 19.Bf4+ Kb6 20.Bd5

20.Rhe1! Rxh2 (20...cxb2+ 21.Kxc3 seriously exposes Black's king) 21.bxc3 Rxf2 22.Rd7+- and Black's game is crumbling fast.

20...cxb2+ 21.Kxb2 Bxd5 22.Rxd5 Kc6 23.Rd3 Re8 24.Re3 Rd8 25.Kc2 Bh6 26.Bxh6 Rxh6

27.Rf3?

Passivity is toxic in a rook ending. Better is 27.Ra3! Re8 (27...Rxf6?? 28.Ra6+) 28.Rxa7 Re2+ 29.Kb3 Rxf2 30.Rxf7+-.

27...Rh3 28.Re3 Rd6 29.f4 Rxf6 30.Ra3? [30.Re7±] 30...Rxf4 31.Rxa7 Rf2+ 32.Kb3 f5 33.Ra4 f4 34.Ra6+ Kb5 35.Rg6 c4+ 36.Ka3??

36...Rf3+!

Now White's king must block the rook check at b1 that was supposed to bail his h-pawn out of the pin.

37.Kb2 fxg3 38.a4+ Kxa4 39.Ra1+ Kb4 40.Rb6+ Kc5 41.Raa6 Rxh2+ 42.Ka1 Rf1+ 43.Rb1 Rxb1+ 44.Kxb1 Rh1+ 0-1

# UTD repeats at Final Four

by Jennifer Shahade and Michael Atkins USCF Online

The Final Four of College Chess (April 5-6, Baltimore) came down to the Sunday morning clash between powerhouse teams University of Texas at Dallas (UTD) and host team, University of Maryland Baltimore County (UMBC). Going into the match, UTD was half a point ahead, so UMBC needed 2.5/4 to earn the title. WGM Katerina Rohonyan lost to IM Marko Zivanic in the first completed game of the match. Meanwhile, Alejandro Ramirez drew against GM Sergey Erenburg, leaving UMBC needing 2/2 to claim victory. In another all GM clash on board two, Timur Gareev (formerly at UT-Brownsville) took down Magesh Panchanathan. Now victory was in reach for UMBC.

On Alejandro Ramirez's UTD chess blog, he writes that: "Kul-J's

excellent style was evidenced in this game, where it is impossible to say where Pawel went wrong. Davorin simply played too well!"

# Harper Wins Lone Star Open

By Franc Guadalupe  
Chess Life Online

Denker Champion Warren Harper, the second-highest rated 16-year old in the nation, allowed a first-round draw to expert Albert Franklin, then proceeded to run the table to win the Lone Star Open, held Feb. 29-Mar. 2 in Houston. Harper secured clear first with a last round victory over IM Danilo Canda.

1.e4 Nf6 2.e5 Nd5 3.d4 d6 4.Nf3 Bg4 5.Be2 e6 6.O-O Be7 7.h3 Bh5 8.c4 Nb6 9.b3?!

This should be prefaced with 9.exd6 cxd6, with a solid but less ambitious alternative to the main line with 9.Nc3.

9...dxe5 10.dxe5 Qxd1 11.Rxd1 Nc6 12.Bb2 Nd7 13.Kf1 O-O-O 14.Nbd2 Nc5 15.Ne1 Bg6!

The e5 pawn is supposed to give White a space advantage, yet he is the one who is cramped. Hence, Harper wants to keep pieces on the board. Black does not challenge the e5 pawn wedge – that would only activate the bishop at b2.

16.Bc3 a5 17.g3 h5 18.h4 Rd7 19.Kg2 Rhd8 20.Nf1 a4!

White had hoped to answer this with 21.b4, but that loses the b-pawn after 21...Ne4. Also, on 21.bxa4 Nxa4 White must surrender the e5 pawn to save his bishop.

21.Rxd7 Rxd7 22.Nd2

Nothing helps. Fritz gives 22.Bf3 axb3 23.axb3 Nxb3 24.Ra8+ Nb8 and White doesn't have much for the pawn.

21...Nxe5 0-1

Black keeps both the pawn and the "inish" (23.b4 Ncd3 24.Nxd3 25.a3 c5 26.b5 Nb4!), so Canda's discouragement is understandable.

After skipping a grade, Warren is a senior at The Tenney School in Houston. It is well documented how Warren, now rated 2357, learned to play chess less than four years ago and became a master in two years. What is still up in the air is where he will end up for his college education. He wants to go to Texas Tech but his mom, Carol, wants him to go to UTD! One thing is certain – He will be a great addition to either school.

Tied for second place, half-a-point behind Warren, were IM Aibek Iskakov and Expert Mark Dejmek. Mark's only blemish was a fourth round loss to Harper.

This offshoot of the Grand Prix attack has become very trendy, with GM Svidler and IM Axel Bachmann among its adherents.

3...Nd4 4.Bc4 a6 5.Nge2 e6 6.Nxd4 cxd4 7.Ne2 d5 8.exd5 exd5 9.Bd3 Bc5 10.b4 Ba7

Fritz gives 10...Bxb4 as equal. 11.O-O Nf6 12.Bb2 Ng4 13.h3 h5?!

Now 14.hxg4 is okay if you're a computer, and can see that after 14...hxg4 15.Re1 Qh4 16.Ng3+ Kf8 (16...Kd8 17.Kf1 f5!? 18.Re5!) 17.b5 Bd7 18.Ba3+ Kg8 19.Re7, White is the one holding the aces.

Harper makes a very practical decision to pocket a pawn at no risk. 14.Nxd4 Qd6 15.Re1+ Kf8 16.Qf3 Nf6

The last ditch attacking effort would be 16...Qh2+ 17.Kf1 Bd7 18.Bf5± or 17...Nf6 18.Ne2! with White consolidating his advantage. 17.Nf5 Bxf5 18.Qxf5 h4 19.Be5 Qb6 20.c3 Qc6 21.a4 Re8 22.b5 Qe6 23.Qxe6 Rxe6 24.Bc7 Rxe1+ 25.Rxe1 axb5 26.axb5 Bc5 27.Bf5 d4 28.Re5! 1-0

Neither 28...Be7 29.Bc8 nor 28...b6 29.Rxc5! was appealing.

Among Mark's four wins was a third-round victory against the top seed, IM Aibek Iskakov.

1.e4 e5 2.Nf3 Nc6 3.Bb5 g6 4.O-O Bg7 5.Re1 Nge7 6.Nc3 O-O 7.Nd5 f5?!

Black jumps the gun, skipping 7...d6.

8.Nxe7+ Nxe7 9.exf5 Nxf5 10.Nxe5 Nd4 11.c3 Bxe5?

With this next idea Black wildly overplays his hand. Best is 11... Nxb5 12.Qb3+ d5 13.Qxb5 c6 with some compensation for the pawn.

12.Rxe5 Qf6!??

The only possible point to the previous exchange.

13.cxd4 Qxf2+ 14.Kh1 c6 15.Be2 d6 16.Re3 Bg4

17.h3! Bxh3 18.gxh3 Rae8 19.Qg1 Rxe3 20.Qxf2 Rxf2 21.Bc4+ d5 22.Bxd5+ cxd5 23.dxe3 Kf7 24.b3 Rf1+ 25.Kg2 Rd1 26.Kf3 Rf1+ 27.Ke2 Rh1 28.Kd3 g5 29.Bb2 Rxb3 30.Rc1 g4 31.Ba3 Rh2

A somewhat more exciting finish is offered by 31...g3 32.Rc7+ Kg8 33.Ke2! Rh2+ 34.Kf3 Rxa2 35.Bd6 g2 36.Bh2 +- .

32.Bd6 Rxa2 33.Rc7+ Kg6 34.Rxb7 1-0

The g-pawn is stopped dead, and White can get on with queening the d-pawn.

That effort earned Mark a free entry to our next event. Rounding up the top five were IM Danilo Canda and NM Bradley Sawyer. In an FM vs. IM match-up, Iskakov (originally from Kazakhstan) prevailed over FM Salvador Infante, whose name suggests his country of origin: El Salvador.

In the U2000 division, Mariano De Medina and Matthew Michaelides tied for first with 4-1. We had a

three-way tie in U1800, with Danny Purdy, Dylan James, and Seth Thompson all scoring 4-1. Lawrence Tuttle won clear first with 4.5 points in the U1600 division. In U1300, Clark Robertson, Alexander Yang and William Riley tied for first, 4-1.

Cajun Chess donated prizes for the youngest participant, seven year-old Hanna Liu; the oldest player, 72 year-old Frank Roberts; and to our contestant who traveled the farthest, Clark Robertson. I am sure it was a happy trip back to Monterey, CA for Clark after having tied for first in his division.

On Saturday we held a scholastic tournament with sixty-eight players participating. Lasalle McMorris won the K-12 division, Harold-Xavier Gonzalez finished with a perfect score in the K-8, as did Stone Sikich in the K-5. Katelyn Wang won the K-2 division.

The Lone Star Open took place at the beautiful facilities of the DoubleTree Hotel, Houston Airport, the site of the 2007 US Class Championships. Although attendance to this event was smaller than in previous years, the 116 participants provided plenty of excitement and great games. As always, Cajun Chess sponsored the event. Senior TD Korey Kormick was my Assistant TD while Jean Troendle, president of Cajun Chess, was in charge of the computer work.

For complete results of this event, see [www.cajunchess.com/](http://www.cajunchess.com/) and [www.uschess.org/msa](http://www.uschess.org/msa).

### Final Four (cont'd from p. 14)

A draw was available, but the refutation to Black's attack is not immediately obvious. The threat of 20...Nh4 is certainly menacing.

# Malazarte wins Texas Action Championship

Ernesto Malazarte won the Texas Action Championship, held March 15 in San Antonio. He scored 5-0, defeating Gregg Stanley and Derek Chang in the final rounds. Selby Anderson, who lost to Stanley in Rd. 3, finished in clear second with 4. Matt Liu (1884) drew Stanley in the last round to win U1900 with 3.5. He tied with Gregg Stanley and Derek Chang (1905), who shared the U2100 prize. Sharing the U1700 prize with 3 were Robert Sturgeon (1543) from San Angelo and Charles Davis (1646). Titus Shanks, Dee Carter and Josiah Kufus tied with 2.5 to share combined U1500 and U1300 prizes. Vadikh Unnikrishnan was top unrated with 2. Martin Gordon directed a field of 24 players at TNI. Prizes (b/40) were cut to the 2/3 guaranteed minimum.

## MALAZARTE WINS!

The Winter Open, held Feb. 23-24 at TNI, drew 26 players. Ernesto Malazarte (2127) was clear first in the 14-player Open section with 3.5 out of 4. Tied for second and U2200 with 3 were expert Don Sutherland and John Niven. (Niven, rated 1702, could have been in the Reserve but he was "playing up"!)

Four players shared the U2000 prize: Martin Gordon, Zhaosu Ye, Allen Eckert and Charles Allen, each scoring 2.

Evan Xiang (1550), a third grade student from Houston, won the Reserve section with 3.5. Gary Cobb (1161) was clear second with 3. Michael LaBelle and Harini Balakrishnan tied for U1600 and U1400 with 2.5. Visakh Unnikrishnam, Jr. was top unrated with 1.5.

The guaranteed prizes were paid, 2/3 in all categories. Martin Gordon directed for the San Antonio Chess Club.

In Round 1, C player Charles Allen (1591) played doggedly against J.P. Hyltin (2078) until after 37...Bf3:

White's attacked rook needs to check at e8, to avert Black's threat

of ...Rh6+, i.e. 38.Re8+ Kf7 39. Rh8!, or 38...Kh7 39.Bf4 and Black has a long slog to win it.

1.e4 g6 2.d4 Bg7 3.c4 Nc6 4.Be3 e5 5.Ne2 d6 6.Nbc3 f5 7.f3 Nh6

Previously he has played 7...Nf6. 8.Qd2 Nf7 9.0-0-0 0-0 10.exf5 gxf5 11.d5!?

This verges on anti-positional, as Black's reply forces a weakening pawn move. More solid is 11.dxe5 dxe5 12.Nd5 Be6 13.Nec3, and if 13...Nd4 then 14.f4 c5 15.fxe5±. 11...Na5 12.b3 c5 13.f4 Qf6?!

14.fxe5 Qxe5

Or 14...Nxe5 15.Bg5 Qg6 16.h4 and Black's kingside woes worsen.

15.Bf4

I did not want to allow 15...f4 releasing the QB to f5.

16...Bd7

16...b5? 17.Nxb5! Qb2+ 18.Kd3 and surprisingly, the threat on the Na5 means Black must trade queens into a poor ending indeed.

1.e4 c5 2.Nf3 d6 3.d4 cxd4 4.Nxd4 Nf6 5.Nc3 a6 6.Bg5 h6!? 7.Bxf6 gxf6 8.Bc4 e6 9.Qh5 Qe7 10.0-0-

Maybe 10.f4 first to secure e5 is a little more accurate.

10...b5 11.Bb3 Rg8 12.g3 Rg5 13. Qh3 Rc5

Black, despite many "violations of opening principle", has a sound game!

14.Rhe1 Nc6 15.Nxc6 Rxc6 16.f4 Rc5 17.f5 Re5! 18.Qh4 Bb7 19.g4 0-0-0 20.a3 Rd7!? [20...Kb8] 21. Qf2 Kb8 22.Rd4 Qd8 23.Red1 Qc7!

This involves a pawn sac to take control of the f-file. Fritz likes 23...h5!? 24.gxh5 exf5 25.Bd5 fxe4 26.Rxe4 f5 27.Re2, but Black has not fully equalized.

24.fxe6 fxe6 25.Qxf6 Rf7 26.Qh4 Rf4 27.Qg3 Qf7

Fritz says Black is about equal.

28.Re1 Rf3 29.Qg2 d5!

A thematic break, opening lines for the bishop pair and setting up Bc5 to oust the Rd4.

30.Qd2 Be7?!

30...Rf2! 31.Re2 Rxe2 32.Qxe2 Bc5! 33.Rd3 d4 33.Nd2 Rxe4±, and Black stands very well indeed.

Also good is 30...h5.

31.Kb1 Bg5 32.Qd1

White has dodged the cheapo, and his rook at d4 remains a centerpiece of his game, while Black's initiative has stalled out.

32...Bh4 33.Rh1 Bf2 34.Rd3 dxe4 35.Rd7 Rd5 36.Rxb7+!

36.Bxd5 Qxd7 37.Bxb7 Qxd1+ 38.Rxd1 Kxb7 39.Nxe4± Rf4 40. Nxf2 Rxf2 41.Re1 Rxh2 42.Rxe6

Rg2 43.Rxh6 Rxc4± With same-side pawns left, it's a likely draw

36...Kxb7 37.Nxd5 Rxb3 38.cxb3?

38.Nb4! leaves Black's e-pawn doubled after 38...Rxb4 (38...Rf3 39.Qd6+) 39.axb4 +.

38...exd5 39.Qc2

39...e3?

This ends any active chances for the pawns. Better is 39...Be3! 40. Rd1 Qe6 41.Rf1! Qd6 (41...d4? 42. Qc5+) 42.b4 Bb6 43.Rd1 Qc6 44. Qxc6+ Kxc6 and Black has excellent chances.

I took Fritz down the rabbit hole, and it came up with 45.Rf1 Bd8 46. Rc1+ Kd6 47.Rc8 Bg5 48.Ra8 Ke5 49.Rxa6 d4 50. Kc2 d3+ 51.Kc3! Bh4 52.Kd2 Bg5+ 53.Kc3 Bh4=, with a forced draw by repetition!

40.Rc1 Qd7 41.Qf5 Qxf5+ 42.gxf5 e2

42...Bh4 43.Kc2 e2 44.f6 Bxf6 45.Re1+.

Better is simply 31...exf4+, but I was trying to keep lines open for attacking possibilities.

32.Be3 Qf5 33.Bxf4 Qg4+??

In theater (I did melodrama in the 80s) we would have called this a "brain fart". Better is 33...Qxf4! (33...exf4 34.Qd5+ Qxd5 35.Rxd5 Rfc8) 34.Qe6+ (34.Rg2 Qe3+ 35.Kh2 Rbe8) 34...Kh8 35.Rg2 Qe3+ 36.Kh2 Rf4 37.Qh3 Qxh3+ 38.Kxh3 Rb2.

This looks wrongheaded, letting White close the center to make the rook look silly. Actually it's very cagey, even disarming in my case.

## Chess in Education Workshop (cont'd from p. 3)

elementary school program from six novice students to a title-winning team with many students participating.

Third, GM Susan Polgar mentioned her vision of chess being in every school within her lifetime. Over the workshop weekend, which was part of the 1,437-player Texas Scholastic, Polgar coached the Knight Raiders (Texas Tech) chess team to a second place finish (first was UT-Dallas) in the college chess competition. When I turned out the lights for our workshop's PowerPoint presentations, the lights went out next door in the college section as well. After that incident, our workshop was careful to be a good neighbor to the college students.

Fourth, I demonstrated an activity from my book, *Science, Math, Checkmate: 32 Chess Activities for Inquiry and Problem Solving*. Participants paired up with chess boards to figure out how knights on b1 and b8, through taking turns and cooperation, might arrive at the other's home squares one after the other. The knight moves illustrated the plot of the children's book *Coco Can't Wait*.

Fifth, Jerry Nash spoke of the importance of coordination among communities, such as the chess and business communities, for continued chess growth. Sixth, Tom Johnston, a high school teacher from Missouri, presented photos, activities, and suggestions. A suggestion that I found particularly useful was to donate chess books and software to the school library, rather than keeping those items in one's classroom. Then all students can check out the chess resources. At the same time, the chess teacher is relieved from having to keep track of those resources.

The final presenter, Clemente Rendon, shared strategic planning for TCA's growth in general and specifically in chess in education.

The third TCA Chess in Education workshop will be March 21, 2009 during the next Texas Scholastic in McAllen Texas. For information about that workshop, please contact Clemente Rendon, TCA Vice President, [crendon44@hotmail.com](mailto:crendon44@hotmail.com).

The USCF Chess in Education workshop will be held Aug. 7, 2008, during the U.S. Open in Dallas. The press release will be issued in June 2008, but I mention it now so that readers can put the date on their calendars. For information about the Aug. 7th workshop, please contact me at [alexey.root@gmail.com](mailto:alexey.root@gmail.com). ♠

## Chess players invited to take part in survey

As a chess player and researcher at the University of Northern Colorado, I am exploring the psychological nature of chess as well as the social benefits afforded chess enthusiasts. The results from this study will be published in a popular press chess magazine. We invite you to participate in this study to help further the intellectual pursuit of chess. The questionnaire takes approximately 12 to 15 minutes to complete, and is devoted entirely to chess.

The purpose of this study is to collect data that will allow us to explore the nature of committed chess enthusiasts and how it may affect future participation. The questionnaire takes approximately 12 minutes to complete. Please note that participation in this study is completely voluntary. You may refuse to answer any questions you do not wish to answer. If you do not wish to participate, simply do not complete the questionnaire. There will be no negative consequences associated with nonparticipation or withdrawal from the study. Your consent will be indicated by completing the questionnaire. Your answers are strictly confidential and no names will be associated with data in any way. Responses to the questionnaire will be kept on a protected computer in a secure facility.

If you have concerns or questions about the purpose or procedures of this study you may call the Principal Investigator, James Gould, at the University of Northern Colorado 870-351-2674 or email [james.gould@unco.edu](mailto:james.gould@unco.edu). If you have concerns about your rights regarding this study, please contact the Sponsored Programs and Academic Research Center, Kepner Hall, University of Northern Colorado Greeley, CO 80639; (970)351-1907.

Additional information is available on the first page of the questionnaire, which can be found at [www.surveymonkey.com/s.aspx?sm=oH0YxNjN\\_2f6wntfNHvOwDQ\\_3d\\_3d](http://www.surveymonkey.com/s.aspx?sm=oH0YxNjN_2f6wntfNHvOwDQ_3d_3d)

Thank you, in advance, for your help on this project. All the best in chess!  
— James Gould, Ph.D.

# Denton Open

For the second year running, IM Marko Zivanic won the Denton Open. Tied for second with 4 were Mihail Bantic, Austen Green and Jonathan Cearley.

Rob Jones directed a field of 55 players in three sections.

## PRIZE WINNERS

**OPEN:** 1st: IM Marko Zivanic, 5. 2nd: Mihail Bantic, Austen Green, Jonathan Cearley, 4.

**RESERVE:** 1st-2nd: Thomas Abi-Hanna, Chris Thompson, 4.

**NOVICE:** 1st: John Madden, 5. 2nd: Tim Deckert, 4.

Class C winner Bob Crume achieved a won game against Bantic, who had a rating edge of 700 points, before blundering away a rook on move 51.

## Notes by Bob Crume

I was 3.5/4 going into the fifth round of the Denton Open. The 3.5 points weren't exactly due to my skill, but good results are often influenced by a little luck. After drawing with FM Keith Hayward in Round 4 I felt good going into the last round paired against highly rated Mihail Bantic.

Perhaps it's time to note that prior to Denton I did not play any tournaments between May 2000 and February 2008!

## Ruy Lopez Closed C97

Bob Crume 1484

## Denton Open (5)

1.e4 e5 2.Nf3 Nc6 3.Bb5 Nf6 4.0-0 Be7 5.Re1 0-0 6.c3 d6 7.h3 a6 8.Ba4 b5 9.Bb3 Na5 10.Bc2 c5 11.d4 Qc7

I've never played the Ruy Lopez in a tournament game, so it was a surprise that we had followed book on the Chigorin for so long (with transpositions). Up to this point I played moves that made sense and

anything I could remember from skittles games. Now I had hit unfamiliar territory and decided to play for psychology and see if I could goad him into pushing his queenside pawns further.

12.b3 c4

He goes for it. [In Bronstein-Gligoric, Belgrade 1964, Black was equal after 12...Re8 13.d5 Nb7 14.c4 Bd7 15.Bd3 Re8 16.Bg5 Qd8 17.Bd2 b4 18.Be3 g6 19.Nbd2 a5, and a draw was agreed... - SKA]

13.b4 Nb7

Now I need to make sure I stay active on the queenside and not allow his advanced pawns to become a threat. I particularly didn't like the idea of the immediate a5 push to his advantage. Understandably, he will eventually push a5 anyway and likely have a passed pawn. If I wait or force him to take on b4 I will then have the c3 square open for my knight and my own passer as well.

14.a4 bxa4

Better seems to be 14...Bd7 to preserve pawn integrity. - SKA.

15.Bxa4 Bd7

Taking with the rook would have allowed him to develop his bishop with tempo. As it is, I have the tempo and now look for ways to pressure his center.

16.Bg5 Bxa4 17.Rxa4 h6 18.Bh4 a5

19.Bg3

My bishop was going to h4 anyway if Black had played 17...a5.

The h6 push helped it get to g3 faster.

19... Nd7 20.Qc2 Nb6 21.Ra3 axb4

I waited until he initiated the capture so I could stay with my plan of activating my knight on c3. Now my moves are fairly straightforward: we'll both get passed pawns which will be blocked by knights, but my knight will strike deeper into his territory.

22.Rxa8 Rxa8 23.cxb4 exd4 24.Nxd4 Bf6 25.Nb5 Qc6 26.N1c3 Re8

Recognizing that the a-file isn't going anywhere, Black posts his rook in a more aggressive manner. He now has threats of d5 with a pin on the e-pawn.

27.f3 Nd7

Black's knight begins a journey to the d3 square. I can't stop this without weakening my pawn structure. After 28. f4 g5 White's king is getting breezy on the g-file and the h1-a8 diagonal so I hatch a plan in which my rook protects my passer, eyes the a-file, and my king keeps his armor.

28.Bf2 Ne5 29.Rb1 Nd3 30.Bd4 Re6

The rook poses a question to the bishop: Do you want to trade? The answer: Only if I feel I get an advantage. Swapping at this point gives up my central Bishop without a decent follow up. One possibility that went through my head was 31. Bxf6 Rxf6 32.Nd5 Qxc5 33.Nxf6+ gxf6 34.Qc3 Kg7 where White just swapped a cramped rook for two great knights and his b-pawn will succumb to Black's activity.

31.Kf1 Be5 32.Qa4 Kh7

White initiates a plan to trade queens while gaining a more centralized knight arrangement.

33.Bxe5 dxe5 34.Nd5 Nd6 35.Nbc3 Qxa4 36.Nxa4 Nb5 37.Nac3 Nd6

White has traded queens, firmly established a knight at d5 with a backup, blockaded black's c-pawn

and more importantly has cleared the path for his b-pawn.

**38.b5 Nb7 39.Ra1 Ndc5 40.Ke2 Kg6**

Now that Black is on his heels it's time to bring the king into the game. Black will attempt to do so as well, and white must look for ways to minimize the dark monarch's involvement. I offered a draw at this point, thinking I had the better position but unclear how to proceed. The offer was out of total ignorance; had I checked the wall charts I would have realized that if Bantic won, he'd win second on tiebreaks. If I won, I'd be in clear second. I had already locked the C-class prize and was oblivious.

**41.Kf2 Rd6 42.Ne7+ Kh7 43.Ned5 g6 44.Ke3 f5 45.Ra2 Kg7 46.Na4 Nd3?**

Time to win. Black's c-pawn! Black went from 19:23 on his clock down to 9:20 in making this move. After an hour and 40 minutes I had to calm myself down. Winning was an actual possibility!

*Better was 46...Nb3 47.Nab6 N7a5 and White must still work to get the c-pawn.*

**47.Nab6 f4+ 48.Kd2 Ndc5**

Not 48.Ke2?? allowing the fork with 48...Nc1+!

**49.Nxc4 Re6 50.Ra7 Kf8**

We both had about 8:30 left on our clocks, so there was plenty of time. All through the endgame I had diligently checked against forks and

forced myself to really look at the board, the squares, and the impact of each move. After ten hours of mind-blowing concentration, almost five complete games, and putting myself into a "won" endgame against a very strong player, I failed to really look one last time. All I could think of, verbatim, was "I've gone 50 moves blow for blow with this guy; trade down, push the pawn, win the game." The board went fuzzy, and after 30 seconds of zoning out I moved.

The next move is ridiculous, to put it lightly.

**51.Na5 Nxa5 52.Rxa5 Nb3+**

I played on a few moves but eventually resigned.

In my zeal to trade down I had played Rxa5 automatically; the knight dropped, and it was like I had been punched in the gut. I've heard of "chess blindness" before, and Na5 may count. However, I simply can't offer any excuses. I didn't calculate that move in the same fashion as the rest of the game. This was a great battle despite the ignoble ending and drove home a lot of learning points. As for the overall event, who wouldn't be happy with 3.5/5 after an eight-year hiatus from tournaments? **0-1**
