Content for the next issue needs to be delivered to the Editor by May 10th!

# From the Desk of The Editor

Hello and welcome!

- This time around we have some new authors that haven't submitted before (at least since I've been the Editor). We have an interview by Lucas Anderson, Forrest Marler (the TCA Vice-President) provided a Collegiate article, some game analysis by GM Alexander Onischuk, and updates from some of our Regional Directors. I also received 221 Southwest Class games from Robert Jones (some of which were used for *Tactics Time* this issue). I'm hoping all of you will consider becoming regular contributors to *Texas Knights*.
- Also, If you can, take a look at the March 2016 issue of *Chess Life*. On page 38 you will find an article about College Chess in Texas. In particular, TTU's recent revamping of their program as-well-as their success at the latest Pan Ams.
- And ... an FYI; You can find current and older issues of *Texas Knights* available for download on the TCA Website (http://www.texaschess.org/p/texas-knights-magazine-online.html). They are standard .PDF files and you can read them on your mobile device or computer with a PDF reader. The (more recent) digital versions are full color and you can also download .pgn files of the games and *Tactics Time* puzzles found in the issues. You can download a consolidated .pgn file of all *Tactics Time* puzzles that have been published so far (The consolidated .pgn file is updated every month with the latest puzzles). If you have never tried the *iChess* app for Android and iPhone/ iPad devices, it's a great way to study tactics using .pgn files (including the aforementioned TK *Tactics Time* puzzles available for download). You can also purchase back issues (please check with me to verify availability).
- Finally, I'd like to thank everyone, both our regular and new contributors. There was an usually large number of submissions and I am grateful to see the interest and participation. If, by chance, you don't see your submission in this issue, rest assured, I still have it and it will likely show up in a future issue. And just an FYI; I always send any game .pgn files that I receive to Tim, so you may see Tactics Time puzzles from the .pgn submissions. It's feast or famine when it comes to submissions, this time we had a full meal with appetizer, main course and dessert! So much, in-fact that there was actually too much. But again, I thank everyone. I truly appreciate the efforts.

The next issue of Texas Knights should be in your hands the first week of June. Take care and be safe.

### — Jeff French

## From the Desk of the TCA President

This year we had one of the largest scholastic chess championships in Brownsville, Texas. The only thing that it lacked was more space for all the players who wanted to play. The organizer, James Houghtaling, did an excellent job.

Starting next year we will split this tournament into North and South Championships. This experiment will create new

challenges. Some known issues like Barber, Denker, and NGIT representatives were decided during the recent TCA meeting. Several others issues were discussed and tabled for the fall meeting.

Chess continues to grow and I am very happy to be part of it. Thank you all for doing all you do. Take care.

— Vish

Thanks to everyone who has contributed to TCA by using Amazon Smile. Amazon donates 0.5% of all eligible purchases. So far this year we've received \$18.33. Not a huge amount but every contribution helps us promote chess in Texas. It works when you buy using Amazon Smile instead of Amazon. Go to **smile.amazon.com** and choose **Texas Chess Association**.

Support the Texas Chess Association by starting your shopping at http://smile.amazon.com/ch/74-2673185

## 2016 Texas Chess Scholastic Championship

For additional information and results: http://2016texaschessscholastics.com (Photos by Franc Guadalupe)

The Scholastic Championships were held in Brownsville between March 4th and March 6th. With 1740 participants representing 95 schools across Texas, it wasn't possible to find enough room for everyone that wanted to play. There were 140 participants in the **High School Championship** tournament. **NM Bovey Liu** won with a score of 6.5/7.0. Following are the results of the top 10 players.

#	Name	Rtng	Rd 1	Rd 2	Rd 3	Rd 4	Rd 5	Rd 6	Rd 7	Tot
1	NM Bovey Liu	2247	W81	W52	W40	W13	W7	D6	W11	6.5

### **Tactics Time:** Answers

#### Answers:

- 63...Kf2 and White has to give up his rook for the knight with 64.Rxf3+ to prevent the checkmate 64...Rg3#
- 25.Bd3 pins the Knight to the Queen, which cannot be defended a second time. If 25...Nxg3 26.Qe8+ Kh7 27.Bxf5
- White missed the killer 31.Nd6, which forks the Queen and Rook, and threatens 32.Qf7+ Kh8 33.Qxf8#
- 4. 14.Nb1 Bb4 15.a3 Ba5 16. b4 traps the Black Bishop.
- 5. 28. g4! Deflects the Black Queen from defense of the Bishop on d3. 28...Qxg4 29.Qxd3
- 6. 14...Bxb4! The a-pawn is pinned.
- 7. 15.Qxd7!! Qxd7 16.Nf6+ wins a piece 16...Kg7 17.Nxd7
- 8. 24.Ng8 attacks the black rook, which cannot move.

Cover. 19.Qh3 attacks the knight on h6, which cannot move, because of Qxh7#. If 19...Kg7 20.Nxe6+

### The 2016 Southwest Collegiate Rapid Chess Championship By Forrest Marler

This year's Southwest Collegiate Chess Championship was held at UT-Rio Grande Valley's Brownsville Campus. There was a format change this year for the annual event. In years past, the format has been either 4 or 5 rounds of Game/90 with a 30 second increment. This year it was decided to try a 3-player team event with 6 rounds of Game/15 with a 10 second increment. This format attracted 35 players on 12 teams. Unfortunately, the UT-Rio Grande Valley "G" team had a no-show and could only field 2 players. This put them at a severe disadvantage with an automatic loss each round making it very difficult for them to win or draw a match.

There were no real surprises in the round by round results. The top 5 or 6 teams were all pretty much evenly matched and any one team could beat or draw any other. Having said that, the UT-Dallas "A" team consisting of GM Gil Popilski, GM Aleksandar Indjic, and GM Denis Kadric easily took the First Place Cup with a score of 5.5/6. The Texas Tech "A" team and the UT-Rio Grande Valley "B" team tied for Second and Third Place. Texas Tech "A" took Second Place on tiebreaks consisting of IM Andrey Gorovets, GM Andrey Baryshpolets, and IM Alexander Battey. The UT-Rio Grande Valley "B" players were GM Holden Hernandez, IM Guillermo Vazquez, and IM Joshua Ruiz. The UT-Rio Grande Valley "F" team won the U1500 Prize with players Bjorn Reyes, Federico Ruiz, Jr., and Daniel Ramirez. Forrest Marler directed.

#	Name	Rtng	Rd 1	Rd 2	Rd 3	Rd 4	Rd 5	Rd 6	Tot

## Game Analysis with GM Alexander Onischuk

Below are 3 games from the **Panhandle Regional Championship** in Plainview, with analysis provided by **GM Onischuk**, the top-rated player in Texas (*ref.* Top Player List, *Overall* section). Enjoy!

Game 1

Breckenridge – Moore [B22] 02.27.2016

Steven Breckenridge played several miniatures. His longest game last thirty moves. Here is his game against a chemistry professor from the Wayland Baptist University Robert Moore. 1.e4 c5 2.c3 d6 3.d4 cxd4 4.cxd4 Nc6?! Inaccurate move. Black allows white to play d5 with a tempo. 5.Nf3 Bg4 6.d5 **Ne5?** This is already a decisive mistake. [6...Nb8: 6...Bxf3 was relatively the best ] 7.Nxe5!

Nice tactics **7...Bxd1** Black still does not see a trap. **8.Bb5+** 

8...Qd7 9.Nxd7 0-0-0 10.Kxd1 with a winning position for white. 1–0

## TEXAS TEAM CHAMPIONSHIP

April 2nd, 2016

### Texas A&M University

Student Union Bldg., 2nd Floor 1505 W. Santa Gertrudis, Kingsville, TX

For more Info contact: Eddie Rios Cell phone: (361) 455-3682 Email: riose@nwcable.net

Hosted by Javalina Chess Club

Game 2

Breckenridge – Chase [C06] 02.27.2016

1.e4 e6 2.d4 d5 3.Nd2 Nf6 4.e5 Nfd7 5.Bd3 c5 6.c3 Be7 [6...Nc6 is stronger and more common] 7.Ne2 Nc6 8.0-0 Qb6 9.Nf3 cxd4?!

Black should not remove tension from the center. Now his position becomes pretty passive and without a counterplay. **10.cxd4 0-0 11.Nf4 a5 12.h4 a4 13.g3 Re8 14.Kg2 Nf8 15.Bc2 a3 16.bxa3 Bxa3 17.Be3 Bd7 18.Ng5 f6?** [18...h6 was necessary 19.Nxf7 Kxf7 20.Qg4 Re7 21.Nh5 Ke8 22.Nxg7+ Kd8 23.Rab1 and despite being down a rook white is much better. His pieces are more active and his king is safer.; 18...Be7? 19.Bxh7+! Nxh7 20.Qh5 Bxg5 21.hxg5 with a winning attack] **19.exf6 gxf6 20.Nxh7**!

20...Nxh7 21.Bxh7+ Kxh7 22.Qh5+ Kg8 23.Qg6+ Kf8 24.Qh7

24...Red8 [24...Ne7 25.Nxe6+ Qxe6 26.Bh6#] 25.Ng6+ Ke8 26.Qg8+ Bf8 27.Qxf8# 1-0

## Game 3

Leo Creger – Alex Onischuk 02.27.2016

1.Qxf6? [This position occurred in my game with Leo Creger in the last round. White should have played 1.Qg5 Kg7 and now bg2! 2.Bg2 with equal chances.] Instead Leo decided to sacrifice his queen 1...Rxf6 2.Rxf6 Kg7 3.a3!?

An interesting idea which unfortunately for white

does not work. [3.Re6 Qd8 4.a3 Rf8! and black should win] **3...Qxf6 4.Rxf6 Kxf6 5.Kf2 h5 6.Bf1 g5 7.Be2 g4 8.Bd1** [He cannot build a fortress, for example 8.Kg2 Kg5 9.Bc3 h4 10.Be1 h3+ 11.Kg1 Rf8 12.Bd2 (*12.Bf2 Kh5 13.Be1 Bd8 14.Bf2 Bg5 15.Bd1 Rf3 16.Bxf3 exf3 17.Kf1 Kg6 18.Ke1 Kf5 19.Kd2 Ke4 20.Bg1 f2* Diagram

21.Bxf2 Kf3 and black is breaking through) 12...Bxg3 13.hxg3 h2+ 14.Kg2 Rf2+] 8...Kg5 9.Bxa4 h4 10.gxh4+ Kxh4 11.Kg2 Rh8 resigned 0-1

## Coach's Corner - e4! The Magnificent 7

by Robert L. Myers

Some situations are just nefarious, like the situation a Master rated player found himself in against Asanti, a lower rated Houston player and adviser/friend of The Chess Academy. It would not be an embellishment if I were to tell you that the Master realized the inevitable Queen sac was surreptitious in nature and led to Mate in two. It was sort of like staring down the barrel of Doc Holiday's shotgun from the movie Tombstone and hearing him say, "I'm your Huckleberry." The expression "I'm your huckleberry" spoken by Doc means "I'm the perfect man for the job."

In another western film, The Magnificent 7, Calvera, is a malicious Mexican thug, or as our former President George W. Bush would say, "Evil doer," and the leader of a band of outlaws that take over a village leaving the townspeople feeling helpless like the Master's King on g1, alone a vulnerable. So the townsfolk, too afraid to fight for themselves, hire seven American gunslingers to free them from the bandits' raids. The professional gunmen train the villagers to defend themselves, then they plan a trap for the evil Calvera. These seven men, the collective, then become known as The Magnificent 7.

game of chess there are more than a few things you can do to defend your pieces and attack your opponent. The ultimate chess player knows all the moves before the first move and until the last move. However; no one knows all the possibilities but if a player could master these seven moves of many, life wouldn't be as hectic. One could, during a chess match, make an opponent (Calvera) feel as if you know their next move as you set up traps. In no particular order they are: Fork, Skewer, Pin, Promote, Zugzwang, Check and Checkmate.

1) Fork - A form of double attack where one piece (I prefer the Knight as it is an intrepid piece) threatens two enemy pieces at the same time. In a triple fork, three enemy pieces are threatened, and my favorite which is rare in upper level play but common among C and D level players, a Royal Fork. This is where the King and Queen and another piece maybe a Bishop or Rook are all threatened.

2) Skewer – This is a tactic where an enemy piece is attacked and forced to move, exposing another enemy piece behind it to be captured. This is great during the End Game and should be effective in gaining material.

In the nearly infinitesimal possibilities in a

 Pin – This is an attack by a gueen, rook or bishop on a piece which cannot move without exposing a more important piece or square. The pinned piece is hiding or blocking the more important piece or square. An absolute/complete pin is where the screened piece is a king, therefore it is illegal for the pinned piece to move as it would expose the King to check, which is illegal. A relative pin is where moving the pinned piece would result in a loss of material or other undesirable outcome. The Pinned piece, is the piece under attack which cannot or should not be moved because of the Pin. Pinning piece is the attacking piece in a pin.

4) Promote – This is so satisfying, it is when a pawn reaches the final rank, back rank, or the other side of the board, it then can be turned or promoted to another piece (except a Pawn or King), usually a Queen. Also known as "Queening" but in rare cases can be promoted into any other piece. This isn't a perpetration. The promoted piece is now the actual piece it has been promoted to become.

**5)** Zugzwang – This is a German term "forced to move". It is a position where a player would prefer to not move at all (but has to move, as not moving is illegal) as any at all will hurt his game.

6) Check – This usually feels good for younger players to say but in tournament play isn't required to say at all. It is the act of attacking the opponent's King. When check takes place, a player usually says "check" so the opponent is aware of the threat. The opponent must get out of check on the next move, either by moving the King, capturing the attacking piece, or moving another piece between the King and the attacking piece. The choices are capture, move or block.

7) Check Mate – As Petulant as this may be, this takes much forethought and planning. It is why we play this wonderful game. It is the "Raison d'etre," reason for existence. Threatening the capture of the opponent's King such that it cannot escape. This wins the game for the attacking side in perpetuity.

In the films, Magnificent 7 and Tombstone, the good guys win but not without a few setbacks. Legendary lawman, Wyatt Earp walks into the middle of the creek into a hail of bullets unscathed and shoots and kills Curly Bill, the leader of the ruthless Cowboys. After the shootout, someone asks, "Where's Wyatt?" Doc Holiday replies, "Down by the creek, walking on water." You opponents may think you actually can emulate a certain Jewish carpenter if you master the Magnificent 7 of chess.

## **Regional Reports**

# **Region 1 Regional Championship** by Tim Doty

On Feb. 27<sup>th</sup>, the Texas Tech Chess Outreach Program partnered with the Texas Chess Association to host the first annual Region 1 "Panhandle" Regional Championship on the campus of Wayland Baptist University in Plainview, TX.

The open division (3 rounds of G/45, + 15 inc.) attracted 16 players from Lubbock, Amarillo, Plainview, and Slaton, TX. At the end of 3 rounds, FM Steven Breckenridge and GM Alex Onischuk were even at 3.0. In a best 2 out of 3 blitz tiebreaker, GM Onischuk earned the title of Regional Champion with a win and a draw.

The Championship Scholastic Divisions (Rated) were played in 1 section (4 rounds of G/30) and attracted 12 players from Lubbock and Amarillo. The K-12 Regional Champion is Jesus Tafoya from Estacado High School, Lubbock. The K-8 Regional Champion is Phillip Onischuk, from Laura Bush Middle School, Lubbock. The K-12 Regional Team Championship goes to Estacado High School, Lubbock. The K-8 Regional Team Championship goes to Evans Middle School, Lubbock.

In addition, there were 2 unrated divisions (4 rounds of G/30) attracting a total of 25 players from Lubbock, Amarillo, Plainview, Slaton, and Loop, TX. The winner of the K-5 unrated team trophy is Southcrest Christian, Lubbock. The winner of the K-8 unrated team trophy is Evans Middle School, Lubbock.

### **Region 4 Report** By Ruben Arzaga

TCA Region 4 Scholastic Chess Championship took place in El Paso, Texas on Saturday February 6, 2016. The 5-round Swiss style tournament consisted of 2 sections, with 29 participants in the rated Championship section and 37 in the non-rated k-12 Open section. The tournament was considered a great success. Entry to the tournament was free thanks to the sponsorships from Sun City Chess Academy and the Friends of the West side Library. Just before the beginning of the 3<sup>rd</sup> round, an unexpected surprise appearance by National Master Benjamin Coraretti (2232) from New Mexico who stopped by to say hi to the kids. In the rated section 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> place trophies were awarded in k-2, 3-4, 5-6, 7-8, and 9-12 grades.

The new champions for Region 4 are: Daniela Cossio, k-2; Antonio Rivera and Sebastian Uriarte (co-champions), 3-4; Fernando Uriarte, 5-6; Sebastian De Leon, 7-8; and Antonio Garcia, 9-12.

A total of 4 teams registered for the Championship tournament with El Paso's New World Montessori School taking the championship. Sun City Chess Academy placed second and Lee Moor took third.

## Regional 6 Scholastic Chess Championship

By J.P. Hyltin

As chess players, we are used to evaluating imbalances. Such are the skills we must draw on to evaluate the course of events at the 2016 Region 6 Scholastic Chess Championship, played on February 20 in San Antonio. On the one hand, you have phenomenal turnout, over 600 players in 2015, but in confined spaces for everyone. And on the other hand you have this year's offering from San Antonio, tucked away in the south west corner of San Antonio city limits at Southwest High School, where the facilities were stunningly spacious and awe inspiring, but with "only" 331 players. Can we possibly find a way to get the best of both in future events?

I had the privilege of directing on the floor in the championship sections this year. The high school championship was commanded by Andrew Quach. Almost 90 rating points higher than his nearest competitor, he seemingly breezed through the field, only giving up a draw to second ranked Barret Odom in the third round. Barret's final round, saving a draw in a difficult position to Michael Montez, gave Andrew the championship undisputed.

The real drama was reserved for the middle school championship. Benjamin Romo overcame several unfortunate events threatening his tie-breaks, when his first round win came by forfeit when his opponent showed up too late to play. His third round pairing reflected a mis-scored second round result, but it was soon determined this did not change how the round was paired.

Still, it had to be unsettling to him, but he played calmly and left no doubt in the final standings by winning his first 4 rounds, settling for a draw in the final round to secure first place.

The elementary section was won by fifth grader Ray Zhang, making his coach (your humble reporter) exceedingly proud. Ranked second in the field, he gave up a draw to the number one player, William Hwang, in the second round, and smoothly won all the rest with no real trouble the rest of the way, while William was downed by third ranked Christopher Aung in the fourth round.

The Primary Championship division (K-3) featured no less than 11 players sporting 4 digit ratings, demonstrating the strength of upcoming players in the region. Rated 1393, Tony Jin squeaked out a first place result by securing a tie with Ethan Wu thanks to an upset by Jeason Chen over Wu in the final round, after Wu had defeated Tony in the third. Tony won on tie breaks.

Directing in the championship section meant I was isolated from the rest of the event, and I was not able to witness the other proceedings, but I would like to note a fine result by the Austin Garza High School team that won the High School U1000 section, with their Connor McLemore taking first in the section. Every game counted in that section as their 13 team points bested my second place John Jay High School team's 12. Garza is ably coached by Mansoor Kapasi. A few weeks before, these teams met at the Casis tournament, and I told

Mansoor "I see how it is. We come to your house and take your trophy, so you come to our back yard to take ours!" He smiled as he responded "We'll see you at state." Mansoor is a class act.

Another Austin team, Elsa England, was rewarded for their trip winning the Elementary Championship. Other winning teams were John Jay High School, first place in High School Championship; Basis School won the Middle School Championship; Beard Elementary won the Primary Championship.

A special award is the Parent-Child trophy, where player scores in the Adult Section are paired with their corresponding children in the scholastic section. This year, the Dye family won that competition, David Dye and his son Michael, who won the Middle School U700 division with a perfect 5-0 score.

This year, Chief Tournament Director Ross Johnson tracked the top 30 players from Austin scored against the top 30 from San Antonio, and found the San Antonio contingent came out on top, 123 to 121.5. Game on, Austin!

**Barret Odom - Andrew Quach High School Division** Round 3

e4 c5 2, c3 d6 3, d4 cxd4 4, cxd4 Nf6 5, Nc3 e6 6. Bd3 Be7 7. Nf3 a6 8. O-O O-O 9. a4 Nbd7 10. Re1 e5 11. Nd5 h6 12. Bd2 exd4 13. Nxd4 Ne5 14. Bf1 Nxd5 15.exd5 Bf6 16. Bc3 Bg4 17. f3 Bh5 18. Qb3 Qd7 19. Ba5 Rac8 20. Bb6 Rfe8 James Houghtaling undertook his first major 21. Rac1

And, the game was drawn a few moves later. Many of these games resolve in 5-minute time scrambles, and complete game scores are hard to come by.

This wild affair came down to a romantic era style king hunt.

#### **Ramon Correa - Zack Genin**

**High School Championship Division** Round 4

**Region 7 Report** by Eddie Rios

Hello everyone, just a recap...

State Scholastic is done. The tournament directors and backroom computer operators did a great job. The volunteers were fantastic. My score keepers did multi-tasking like you would not believe, kudos to them.

Francisco Guadalupe was a great firefighter/ chief tournament director.

tournament and survived with flying colors.

But the group that i want to recognize are the players and the parents. Without you, the players, we would not be there. Parents, we appreciate the support you give your children, because without that, we would not have many of those children playing. For that, I thank you all and I am humbled to have been a small part of that. Until the next one, thank you everyone.

Coming up, March 19, UT-RGV will be hosting in Brownsville, send your entries in.

April 2, we have another state tournament, this time it is the Texas Teams in Kingsville. Get your teams of 4 set up and send in your entries.

Then we switch to Rockport/Fulton area where we have a two section event.

The game 70 champs which includes a nonmember section for those who have not quite made up their minds whether or not to join US Chess. Lets have some fun! pay attention to the dates on these.

Then we come to Corpus Christi for the Tamucc first tournament which includes scholastic and open sections. This is up to the end of April. May is just as exciting with Luis Salinas hosting the Texas State and Amateur tournament.

See you at the boards.

### **Region 8 Scholastic Championships** By Edward Guetzow

Stephania Montes De Oca	6.5		
HANNAH HIGH SCHOOL OF BROWNSVILLE			

## An Interview with GM Héðinn Steingrímsson

By Lucas Anderson

Hedinn Steingrimsson is the current and three-time champion of Iceland. In this interview, GM and FIDE Senior Trainer Hedinn Steingrimmson talks to Lucas Anderson, chess coordinator at the Awty International School, about his successful career and recent move to Texas.

### Tell us a bit about your journey from Iceland to Houston.

The journey started some time ago, when I decided to study on a full chess scholarship at a Texas University. I liked the hospitality of the Texas people and swiftly finished a MSc in Finance and MBA in two years. Then I lived in Manhattan for some time before I returned to Texas, this time to Houston. I liked New York a lot--wonderful people and vibe in the city. It is easy to work as a chess coach in New York. Then my better half pulled me to the Lone Star state again. I like Houston very much too. During my short time in Houston, I have already met very interesting people and the slower pace than Manhattan has its charm too.

# You were the U12 World Champion in 1987. What was your training regimen in your child-hood?

Before that I had won my age category of the Scandinavian Championship every year since the age of eight, usually winning all the games. That meant travelling to the Scandinavian countries. I was back then and still am fascinated by the almost endless different ways of playing chess. I have always read a lot about chess and reflected on how one should play our royal game. I guess my main training regimen was my passion for chess. I did not have a coach, but I have always done very well at school and I liked reading. I guess chess was a bit like a school subject with the interesting benefit that I got to travel all over the world.

### You've mentioned having an extensive library of chess books. Do you have some favorites?

Generally I do not have many favorites. I feel that there is always room for improvement. The quality of chess books has improved considerably in the recent years. I have trained with some of the top chess authors for example Mark Dvoretsky. If pushed, I would probably choose his books.

# You won the Icelandic National Championship for the first time in 1990, and for the third time in 2015. To what do you attribute your chess longevity?

It definitely helps that I started very early. Then being an intellectually curious person, I have a strong urge to work on self-improvement; that also translates to improving my chess. In chess just like in everything else the more you know, the more aware you are of the fact that you have only scratched the surface.

### In 2015, you won the Icelandic Championship in all 3 time controls (Blitz, Rapid, and Classical). Does your training differ for shorter time controls?

I do not specially train for shorter time controls. In my opinion the strength of a chess player usually shines through independent of time control. There are exceptions to this of course.

# You hold advanced degrees in Computer Science and Neuroscience, among others. How has this education influenced your chess development and your work as a coach?

I feel that my academic degrees and chess have created mutual synergies in various ways. My chess, both as a coach and a player, has improved due to the new ways of thinking and work discipline that my University degrees have trained. Also, some domain-specific knowledge in both of these subjects is very relevant to chess. As a coach my Neuroscience background is definitely helpful. After all the goal is to improve the way my students use their brain. Also Computer Science definitely helps since it is important to understand how modern chess software works and how successful cooperation between our wetware and our silicon friends looks like.

# By my count, you are one of about ten Grandmasters in the United States who also hold the title of FIDE Senior Trainer. How do you balance playing and coaching?

When I defended my FIDE Trainer thesis, GM Adrian Mikhalchishin, the chairman of the FIDE Trainers' Commission, said that my approach to chess is very much the one of a trainer. This came as a surprise to me at that time, but I think he is right. It is natural for me to seek samples that demonstrate a certain chess principle from different perspectives. I come from a family of teachers: my father is a Professor Emeritus in physical chemistry and my mother taught nutrition. Maybe this educational approach that comes naturally to me is one of the reasons for my relative success in being my own coach and for my chess longevity.

I certainly wish GM Steingrimsson a long and successful career as a player and coach, and thank him for agreeing to this interview. If you'd like to learn more about the classes GM Steingrimsson offers, please visit his website at www.worldchampionmind.com. You can reach the author at landerson@awty.org.
