A Message from the President

Fellow Texas Chess Players,

It's hard to believe that 2008 has come and gone. Thank you to all the officers, volunteers, tournament directors and leaders who helped to make this a fantastic year.

Below are paradoxical commandments that are credited to Mother Theresa of Calcutta. Hopefully it will help inspire you to always give your best in everything you do in life.

- People are often unreasonable, irrational, and self-centered. Forgive them anyway.
- If you are kind, people may accuse you of selfish, ulterior motives. Be kind anyway.
- If you are successful, you will win some unfaithful friends and some genuine enemies. Succeed anyway.
- If you are honest and sincere people may deceive you. Be honest and sincere anyway.
- What you spend years creating, others could destroy overnight. Create anyway.
- If you find serenity and happiness, some may be jealous. Be happy anyway.
- The good you do today will often be forgotten. Do good anyway.
- Give the best you have, and it will never be enough. Give your best anyway.

Best wishes for a prosperous year.

Tommy He, Jonathan Chiang and Raymond Sun

In covering Darwin Yang's bronze-winning performance at the World Youth Championships (Vietnam, Oct. 20-31) last issue, we omitted to report that three players from Texas (Jonathan Chiang, Raymond Sun and Tommy He) won the **third place team trophy** in the Under-8 division. As reported, Jonathan Chiang had the best individual result of the three, earning a fifth place trophy.

These three, along with Dachev Lin, were selected by USCF in November for the 2009 All-America Team. There are just five team members in the eight and under category, and four are from Texas! (Raymond Sun has since moved to China, according to Frank He.)

Other Texans on the All-America team are Salvijus Bercys (age 18; I know USCF says he's a New York resident, but we'll forgive that!), Warren Harper (age 16), Jason Altschuler (age 12) and Darwin Yang (age 11).

Of the five 8/under All-America Team members, four are from Texas!

Robert Clarke and Neph Diaz won the bughouse event. The parent-child tournament was won by Evan and Matthew Michaelides.

Kart Ramachandran was awarded a UTD scholarship. Senior co-winner Glenn Baumann, who had already been accepted to UTD, did not win a scholarship.

Barb Swafford reports there were five sets of twins at the tournament – two sets each in 5th grade and 7th grade, and another in 1st grade!

Next year Dallas Chess Club is again organizing the event at a site still to be determined. The big news is that 12th grade will change time controls, from G/45 and G/60 to a time control like the collegiate section, which is G/90 with 30-second increments. UTD no longer wants to give the scholarship to tournaments with such short time controls.

Barb Swafford organized the event for the Dallas Chess Club. Franc Guadalupe was the chief TD.

Pan-Am Intercollegiate: UT Dallas “B” wins on tiebreaks over UMBC

The “B” team from the University of Texas at Dallas tied for first with University of Maryland-Baltimore County in the Pan-American Intercollegiate Championships, held Dec. 27-30 in Dallas. Both teams scored 5-1, with UTD taking the first place trophy on tiebreaks.

UT Dallas-B (2510)	Rating	Score/Rds.
1. IM Jacek Stopa	2536	3.5 / 6
2. IM Drasko Boskovic	2502	3.0 / 5
3. IM John Bartholemew	2507	4.0 / 6
4. IM Salvijus Bercys	2493	5.5 / 6

UMBC (2596)	Rating	Score/Rds.
1. GM Leonid Kritz	2664	3.5 / 4
2. GM Sergey Erenburg	2634	4.4 / 6
3. GM Timur Gareev	2631	5.0 / 6
4. WGM Savina Foisor.	2453	2.0 / 4
Aaron Kahn	2296	1.0 / 2
Zoltan Revesz	2162	1.5 / 2

The two teams had four wins and two drawn matches, In Round 2 the Miami-Dade Collge A-team (2262) pulled an upset and tied UMBC. In Round 4 UTD-B was paired against their sister A-team (Alejandro Ramirez, Davorin Kuljasevic, Wang Puchen and Marko Zivanic), and the result was draws of 8-13 moves right down the line.

On the last day in Round 5, UMBC took down its main rival UTD-A, while UTD-B defeated the much lower-rated Harvard (2272).

In the final round UMBC had to go up against its second 2500+ team of the day. UTD-B was in trouble after Stopa lost to GM Kritz on top board. With draws on middle boards, it was up to Salvijus Bercys to save the match for UTD by defeating WGM Savina Foisor. His 5.5 score won Bercys the prize for Board 4.

Coming in third place with 4-2 was the University of Texas at Brownsville (IM Daniel Fernandez, Nadya Ortiz, Brad Sawyer, WIM Luciana Borales and Arturo Gracia) on tiebreaks over UTD-A. Stanford came in fifth.

Luis Salinas directed for Southwest Chess.

US Chess League: Dallas Destiny captures '08 title

by Jonathan Hilton

US Chess Online, 12- 7-2008

On Saturday night, Dec. 6, after six exhausting hours of play, the Dallas Destiny became the first-ever repeat champions of the U.S. Chess League. The Dallas Destiny and the Boston Blitz went 2.0-2.0 in the traditional four-board matchup followed by a strenuous marathon blitz tiebreak that delighted spectators and fans of both sides.

The tiebreak, whose bottom-up elimination-styled format allowed it to run for nearly two hours, finally ended when Dallas second-board IM Davorin Kuljasevic defeated Boston's first board, GM Larry Christiansen, with the Black pieces around 9 p.m. Eastern time. In the minutes that followed, the Internet Chess Club looked akin to how I'd imagine an Internet forum on New Year's Eve at midnight. League fans from around the country burst into an instant messaging free-for-all, showering the ICC with laud and congratulations for Dallas.

Some weeks ago, at the start of the playoff season, the Dallas Destiny seemed to many an unlikely bet to capture the championship. With a 6.5-3.5 record in the regular season and a mere 53% win rate-they were third out of the four teams in the Western Division that qualified for the playoffs. Their opponents in the play-off, the Boston Blitz, had been third in the Eastern Division with only a 6.0-4.0 record. Yet these two teams strung together match victories when they counted the most, thus thumbing their noses at those fans and pundits who had already counted them out. Throughout the

entire season both teams had confidence in their ability to succeed. I remember seeing a comment made by the head coach at the University of Texas at Dallas, IM Rade Milovanovic, after someone predicted another team would win the League this year. "The defending champions are always the favorite," he cautioned. Meanwhile, the Boston Blitz weren't afraid to publicize the match beforehand on Facebook. They listed it as an upcoming "Sporting Event" and sent invitations to chess players across the Internet-including myself-to attend.

The showdown began at 3 p.m. Eastern, an hour earlier than Texas time. Within the first hour of play, it looked as if the Dallas Destiny were headed for a Dallas Disaster.

Top board IM Marko Zivanic was getting "blitzed" in a thunderous attack by GM Larry Christiansen, and FM Igor Schneider was getting both squished and squashed by Boston's NM Marc Esserman. By late afternoon, it became apparent that neither player's position had long to live.

If this bashing on Board 1 wasn't bad enough, here is how Esserman finished off Schneider on Board 3:

Thus Boston had prevailed in both its White games. If they could hold a draw on just one of the remaining two boards, the title would be theirs. By the time Boston had secured victory on both Board 1 and Board 3, however, it had begun to look as if that much-needed draw would not come from their fourth board game. WFM Bayaraa Zorigt of Dallas, who had defeated Boston's Ilya Krasik earlier in the season, was about to put an end to an incredible string of five consecutive wins. Zorigt, who had beaten four masters the previous week in the UTD Invitational, developed her pieces to good squares and took advantage of weak squares Black was saddled with in the opening. By move 33, Black was staring at a mate in seven, which he played out only partway.

This shifted the entire weight of the League championship onto IM Davorin Kuljasevic of Dallas and nearly 2600-rated Sammour-Hasbun of Boston.

Kuljasevic, playing White in this Board 2 matchup, had pressure on Black's queenside. He was also gaining a large time advantage on the clock. Could USCL hero Sammour-Hasbun hold the draw and save the day? After a valiant struggle to defend his queenside, Sammour-Hasbun finally cracked under pressure and allowed Kuljasevic to mop up all his queenside pawns:

USCL finals 2008

1.d4 d5 2.c4 c6 3.Nc3 Nf6 4.e3 e6 5.Nf3 Nbd7 6.Qc2 Bd6 7.g4

A popular line these days.

7...Nxc4 8.Rg1 Nh6!?

A rare move, but Sammour-Hasbun has a particular follow-up in mind.

9.Bd2 f5!?

As far as I know, this is a novelty. The idea is to stop White from playing e3-e4 and to gain control over the e4 square. Previously, Black had tried posting his knight on f5 to defend the g7 pawn, something which didn't work out well for Black in Shirov-Dreev, 1993: 9...Nf5 10.e4 dxe4 11.Nxe4 Be7 12.0-0-0 Nf6 13.Bd3 g6 14.Bc3 0-0 15.h4 Qc7 16.Ne5 when White had a lot of pressure for his sacrificed material,

making the position rather unclear. Shirov, however, thrived in the complications and won.

10.Rxg7 Qf6 11.Rg2 Nf7 12.0-0-0 Nf8 13.Bd3 Ng6 14.cxd5!

This move shows the problem with Black's development scheme. White has regained his pawn and gained a lead in development; now he is able to open the c-file, and Black's rooks are not yet connected.

14...cxd5 15.Nb5 Bd7 16.Nxd6+ Nxd6 17.Kb1 Rc8 18.Qb3 a6 19.Ne5 Bb5 20.Bxb5+ Nxb5 21.a4 Nd6 22.Qb4

White has further developed his initiative over the past several moves. Black has defended well, particularly by exchanging off the light-squared bishops, leaving White with only one member of the bishop duo. White is penetrating on the queenside, however, and by this point Sammour-Hasbun was close to time-trouble.

22...Ne4?

22...Nxe5 23.dxe5 Qxe5 24.Bc3 Rxc3 25.bxc3, when White is better, may have been forced.

23.Qxb7

From here on out, the White is clearly winning. Black manages to castle, but he is too late.

23...0-0 24.f3 Nd6 25.Qxa6 Nc4 26.Nxc4 Rxc4 27.Rc1 Rxc1+ 28.Bxc1 f4 29.exf4 Qxd4 30.Qxe6+ Rh8 31.Rd2 Qxa4 32.b3! (Diagram)

Black must lose his queen after 32...Qxb3+ 33.Bb2+ d4 34.Qxb3.

Black resigns 1-0

This could only mean one thing: the match would move to the blitz play-off extravaganza! In this wild blitz circus, the match is decided by a process of elimination. First, the fourth boards play; the loser is eliminated, or a draw eliminates both players. In this case, WFM Bayaraa Zorigt repeated her victory over Ilya Krasik. This meant she went on to face Boston's third board, NM Marc Esserman, who has a reputation as a strong blitz player. Much to the excitement of those watching on the Internet Chess Club, Zorigt gained a sizable advantage in the opening (see diagrammed position below).

Position after 17...hxg4

As pointed out by the spectators, the in-between move 18.f4! (instead of 18.Rxh8+) would have secured White's positional dominance.

The moment of truth, however, came on move 23, when both sides were beginning to get dangerously low on time. Black's 23...b5 led to a position in which White could have dealt Black a tactical blow:

Position after 23...b5

Now 24.Nb6!! Nxb6 25.Rd8 Kh7 26. Qxf7+ Qg7 27.Qxf3 would have left Black helpless. After missing this golden opportunity, Zorigt was slowly outplayed as both players survived off their five-second increments.

The blitz fest continued as Esserman went on to face Dallas's third board, FM Igor Schneider, whom he defeated. This gave the advantage to Boston. It also meant, however, that blitz invincible IM Davorin Kuljasevic got to step up to the plate.

Kuljasevic destroyed Esserman's Dutch Defense and then defeated Sammour-Hasbun from the Black side of the Exchange Slav. This meant Boston's last card had to be played: the king of clubs, GM Larry Christiansen. Christiansen, who can give masters five minutes to one minute time-odds in blitz-and cream club players at rook or even queen odds, is an Internet Chess Club blitz legend.

But Kuljasevic was on a roll, although he did fail to press what looked like a positional advantage with White in his first game. Draws don't eliminate either team's Board 1

player, who must be defeated in combat, so they played again with colors reversed. Kuljasevic counter-struck with vengeance in their second game, in which he had the Black pieces.

Although at some point along the way Christiansen had an undeniable advantage, Dallas Destiny's second board fought to keep both tactics and hope alive, eventually finding a perpetual check.

Then the unimaginable happened: Christiansen's king waddled into checkmate!

Position after 30...Qe3+

White is fine after 31.Kg2 Qd2+ 32.Kg1 Qe3+, draw. If 31...Qe2+ instead, White can step back to h1 with confidence, since Black's queen has taken its eye off the c1 square.

Instead, however, White played 31.Kh1??, and after 31...Rc1+ 32. Bf1 Qf3+ 33.Kg1 Qxf1#, White was in checkmate. Here is the game:

UTD team gets solid workout at 7th GM Invitational

itself as the current two-time champions of the Pan-American Intercollegiate Team Championship.”

“They can go take their exams knowing that they will be in good shape for the big tournament,” Milovanovic said.

This year a new section was added for players seeking IM norms. There were twenty participants, almost twice last year’s field of twelve players.

At the opening ceremony for the UTD GM Invitational, Alexey Root suggested that WFM Bayaraa Zorigt rub GM Alejandro Ramirez’s head for good luck (see cover photo). Alejandro and Bayaraa agreed that it couldn’t hurt. In round six, the mutual luck was on as Alejandro won against IM Sal Bercys, while Bayaraa defeated NM Taut Vedrickas.

The last game to finish in the IM-norm section was GM Jesse Kraai’s 111-move win over WFM Bayaraa Zorigt. After second-place finisher GM Babakuli Annakov and FM Igor Shneider drew in 15 minutes, Jesse only needed a draw to clinch first. However, as Jesse put it, “I came to play chess.” A full time chess player, Jesse recently moved to Berkeley, California to live in the GM House (see next page.)

GMs Julio Bacerra and Babakuli Annakov

The four visiting grandmasters at the seventh annual UT Dallas GM Invitational Tournament (Nov. 26-30) put up concrete resistance at every turn and gave the UT Dallas Chess Team members plenty of practice.

“They proved worthy of their invitations, GM titles and high ratings,” said Jim Stallings, director of the UT Dallas chess program. “We fully expected that, however. In chess, the rating system is statistically very accurate.”

Several UT Dallas team members increased their chess ratings, but none were able to score enough wins to achieve a norm for a new title as the top-seeded visitors prevailed to win in each section.

Visiting grandmasters for the tournament included Babakuli Annakov of Dallas, Texas; Julio Becerra from Florida; Sergey Kudrin from Connecticut; and Jesse Kraai from New Mexico.

“It is all right,” said chess coach IM Rade Milovanovic. “Now the team will be ready to defend

"Therein lies a story," the saying goes. Alexey Root's passing reference to the GM House in her Chess Life Online article piqued my curiosity, and a Web search came up with this entertaining piece:

GM House, or "Real World: Chess House"

by Vinay Bhat December 4, 2008

Besides NY, and to some extent, Philadelphia and Los Angeles, there isn't generally a concentration of chess talent in one [US] city. Even in those big cities, the talent tends to spread out across the city. But now the west coast will put El Cerrito, a town of about 30,000, on the map. El Cerrito was already home to GM Josh Friedel (who moved to California from New Hampshire) and with a few recent additions, the city is one of the strongest west of the Mississippi.

Pulling a page out of the Chinese playbook, a bunch of US chess players will live under the same roof! Full-time chessplayers tend to be a little eccentric (I'm certainly no exception), so the cast of characters makes this an easy target for a reality TV show. [Continued next page.]

This rook almost certainly belongs on e1.

A model of White's play is 11.Re1 b5 12.a3 Nbd7 13.e4 Ng4 14.h3 Nge5 15.Nxe5 Nxe5 16.f4 Nd7 17.Be3 Rc8 18.Kh2 h5 19.e5! dxe5 20.f5 Qb6 21.Qf2 (Miroshinchenko-Safarli, Moscow open 2008) 21...Rfd8 22.Ne4 Nf6 23.Rac1=.

11...Nbd7 12.Bf4 Qe7 13.e4 Ng4 14.Bg5 f6 15.Bf4 Nde5 16.Ne1 g5

17.Bc1 Rae8 18.Rb1 f5 19.h3 Nh6 20.b4

Maybe it's best not to let Black put a pawn wedge at f4. However, after 20.exf5 Nxf5 21.Qa4 Bc8 22.Ne4 h6 23.Nc2 a6 Black gets his queenside pawns rolling, with superior mobility on both wings.

20...f4 21.bxc5

21.gxf4 gxf4 22.bxc5 bxc5 23.f3 Qh4 24.Qa4 Bc8 25.Ne2 Bxh3 26.Bxh3 Qxh3 27.Rb3 Nhg4! 28.fxg4 Qxg4+ 29.Kf2 f3 30.Ng3 Qh3+ with a winning attack.

21...bxc5 22.Qa4 Bc8 23.Nb5 a6 24.Na3 f3 25.f3 g4 0-1

What an alarming rout! White's resignation is a little extreme but understandable, given his steady downhill slide over the past 15 moves. Certainly 26.h4 Nf3+ is not appealing, and also after 26.hxg4 Nhxg4 Black's pieces storm into the kingside:

(a) 27.Nd3 Nf3+ 28.Bxf3 (28.Kh1 Qe5!! -+) 28...Rxf3 29.Kg2 Bd4! 30.Re1 (30.Kxf3 Qxe4#) 30...Rxd3+;

(b) 27.Bf4 Ng6 28.Bc1 Nf2 29.Rd2 Nxe4 30.Bxe4 Qxe4 31.Qxe4 Rxe4 32.Nec2 Be5, and Black soon wins a second pawn at g3.

1.e4 c5 2.Nc3 e6 3.Nf3 a6 4.d4 cxd4 5.Nxd4 Qc7 6.Be2 Nf6 7.0-0

Alejandro asked if he was playing the opening correctly. Sal answered that the game so far was exactly following "A World Open game where I got killed as Black."
 7...Bb4 8.Qd3 Nc6 9.Nxc6 bxc6 10.f4 d5 11.e5 Nd7 12.Kh1 0-0

Sal thought he might have played 12...a5 with the idea of Ba6.
 13.Qh3 f5 14.g4 Rb8

In addition to Alejandro and Sal, Taut Vedrickas, Francisco Guadalupe, and Bayaraa Zorigt were watching the post mortem. No one liked 14...Rb8. Recommended instead were 14...Bxc3 15.bxc3 or 14...Nc5 15.Be3. Sal said he had played 14...Rb8 because he didn't know what to do, and "I played a move that attacked something eventually."
 15.gxf5 exf5 16.Be3 Nb6

If instead 16...Bc5? 17.e6 Bxe3 18.exd7 Qxd7 19.Qxe3 d4 20.Qe5 winning for White. Alejandro said,

"I don't remember seeing this but I figured there had to be something."

[Fritz likes Black after 16...Nxe5! 17.fxe5 f4 18.e6 fxe3 19.Qxe3 Be7 - SKA.]

17.Rad1 Nc4

According to the post mortem crowd, if instead 17...Bxc3 18.bxc3 c5 (with the idea of Nc4) 19.Bf3 Bb7 20.Qg2.

18.Na4 Be7 19.b3 Nxe3 20.Qxe3 a5

Sal considered instead 20...Be6 21.Bxa6, sacrificing a pawn for activity. He thought for 25 minutes before rejecting 20...Be6. Alejandro commented, "Sal is the kind of player that thinks 25 minutes and then plays 20...a5. I tried to use the Dvoretzky method (prophylactic thinking) to figure out the point of a5, but I think it was to defend a pawn."

21.c4 Be6 22.cxd5 Bxd5+ 23.Bf3 Bxf3+ 24.Qxf3 Rfd8 25.Nb2 g6 26. Nc4 Rxd1 27.Rxd1 Rd8 28.Kg2 Rxd1 29.Qxd1 Qa7

The alternative of 29...Qd8 instead of ...Qa7 was discussed.

30.a4 Kf7 31.Qd2 Bb4 32.Qd8 Qe7 33.Qh8

Alejandro played this move quickly, which Sal commended as the best winning try.

33...Qh4 34.h3 Qh5 35.Qf6+ Kg8 36.Qd8+

"After this move, I was pretty sure I was winning, and that I could hold back his counterplay and prevent a perpetual."

36...Kg7 37.Qd3 Qh4 38.Qd4 Qe1 39.e6+ Kg8 40.Qe5 Qh4?

40...Qc3 (also to c1, b1 or d1) 41.e7 Qc2+ and White must allow a perpetual, or fight with N vs. 3P after 42.Kf3 Qxb3+ 43.Ne3 Bxe7 44.Qxe7 Qxa4= - SKA.

Although Bayaraa lost her last round, her 5/9 was above the WIM-norm requirement. But there was a problem with the composition of the IM-norm section.

UTD Chess Program Director Jim Stallings explained, "Bayaraa had enough points for a WIM norm. But due to a last-minute player substitution (which filled the requirement for

enough players from other federations but not the requirement for titled players), a norm was not achieved."

There were not any norms in the GM-norm section either, though IM Jacek Stopa came close. Jacek needed a last round win over IM Marko Zivanic in the following game for a GM norm.

It's been a long road for the Dallas Destiny to become the first-ever repeat U.S. Chess League Champions. They lived the entire regular season out of the limelight, only to burst once again onto the stage for the Semifinals and, tonight, the Finals. The Dallas Destiny isn't in the U.S. Chess League for glory alone, however; its real staying power comes from the friendships of the team members themselves. "Our team members are a close-knit bunch and ultimately I think this is what carried us through the playoffs and final against Boston," said team

captain IM John Bartholemew, who has sought all season to just step back and allow his teammates to perform. Bartholemew continued, "I would point especially to the performances of Bayaraa Zorigt and Davorin Kuljasevic, who were simply phenomenal this season." With an encouraging coach like Bartholemew, one can only think that the future destiny of Dallas will continue to burn brightly. ♁

Correction to last issue

In the Nov.-Dec. 2008 *TK* issue we reported that no scholarship was awarded by UTD at the **Texas Girls' Championship**. In fact, Courtney Jamison was awarded the Distinction Scholarship by Luis Salinas, who flew down for the occasion. Nevertheless, the scholarship is off the table for future events until a change to slower time controls is instituted.

New SACC web address

Our club website went down a week before Christmas, but it is back up at

<http://home.roadrunner.com/~sachess>

Thanks to the efforts of webmaster Greg Wren; also Steve Dampier, who has great patience on the phone with customer service personnel!

People looking for teams can be added to (or choose from) the online roster at the SACC website under Future Events. E-mail your contact info to our webmaster, Greg Wren, at gwren@satx.rr.com.

Our site went down when our Internet service provider made a sweeping change requiring older users (6+ years in our case) would have to "migrate" their websites.

Although we finally succeeded in this, we noted a lack of advance notice or plans for customer service given the inevitable questions.

Rylander wins Fall Open

The Fall Open (San Antonio, Nov. 15-16) drew just 25 players despite having a *Chess Life* ad, hardly an improvement over Octoberfest. The recession, not just gas prices, seems to be driving this trend.

Dennis Rylander won the ten-player Open section with 3.5 out of 4 (\$125), taking a last round bye and winning three games. Ernesto Malazarte and Alok Kumar (1887) split second and U2100 prizes with 3 (\$62.50 each). Richard Gabriel won the U1900 prize of \$50 with 1(!)

Paul Franke won the Reserve (U1800) section with 3.5 (\$75), ahead of Alfredo Garcia and Raymond Grillo, who shared second and U1700 with 3 (\$50 each). Mike LaBelle and Titus Shanks tied for U1500 with 2.5 (\$18.75 each). The lone unrated player was Christopher Clark (\$37.50).

Selby Anderson directed, with assistance from Martin Gordon. The new playing site at the Hornbeak Building next to TNI was adequate, except that the thin room partition did not permit the adjoining classroom to be much of a skittles area.
